Massacre of Christian Hosts by the Turks is Sure to Follow Spread of the Revolt Say The Officials.

Constantinople, Aug. 13.—About 150 revolutionists were killed in the fighting at Sorovich August 9 according to official Turkish reports. The same dispatches which have been communicated to the Russian and Austrian Embassies, states that the insurrectionary movement is increasing daily and a big massacre of Christians is inevitable.

Hilmi Pasha, General of the Sultan's Macedonian reforms, reports that the young men in all the Bulgarian villages are fleeing to the mountains to join the insurgent bands. Many among the Bulgarian peasantry wished to remain neutral, but were compelled by threats to help the revolutionary committees.

Husein Hilmi Pasha, who has been appointed Vali of Monastir, reports a similar spread of the insurrectionary movement in the vilayet of Salonica, where, he says, the committee are resolved on the same campaign of massacre, incendiarism and pillage as in the vilayet of Monastir.

Telegram received from Monastir announce that the town of Krushevo is still occupied by the insurgents. Four thousand Turkish troops surround the town and are preparing to attack, and if possible, retake the position. Fighting with the rebels is in progress in the district of Dibra, where it appears that the Albanians are attacking Bulgarian villages.

The insurgents continue to devastate the district of Koeritza and have captured important Turkish supplies of provisions. More or less severe fighting is reported in the districts of Kastoria and Florina. Three hundred insurgents are assembled on heights

between Gieffell and Yenije. Twenty-six Musselman peasants have been massacred in the village of Ziverini, near Perlepe, by the insurgents. Stringent military precautions have been taken in the town of Uskub to prevent threatened dynamite outrages.

The Bulgarian government charges Turkey with doing less to prevent the insurgents from crossing the frontier than Bulgaria, though Turkey maintains four times as many troops along the border. The Turkish soldiers invariably retire to barracks at sunset and remain there until sunrise, leaving free egress to the Macedonian insurgents during the night. The Turks fight bravely during the daylight, but dislike skirmishing in the dark.

The whole Bulgarian government takes a decidedly pessimistic view of the situation, and the officials openly express their fears that a general massacre of the Christians in Macedonia is inevitable, possibly within four days, and almost certainly within a fortnight.

READY FOR SLAUGHTER.
London, Aug. 13.—The Times prints a dispatch from Sofia which says that the Turkish authorities at Uskub have distributed 5,000 rifles to the Mohammedan population, which already threatens Christians with massacre.

REBELS WELL ARMED.
Vienna, Aug. 13.—Statements from Bulgarian sources assert that the revolutionists possess 35,000 rifles, 15,000,000 cartridges and 4 tons of dynamite; that the insurgents number 25,000, of whom 10,000 are in the vilayet of Monastir.

Kansas Wreck.
Topeka, Kan., Aug. 13.—West bound Rock Island passenger train which left Kansas City at 10:30 last night, ran into a wash-out two miles west of MacFarland this morning and the engine, mail car and combination coach were derailed. The railway authorities state that none of the passengers was injured and that all the trainmen except the firemen escaped. The latter is reported to have been drowned. The washout was caused by a cloud burst that caused a torrent to rush down an ordinarily dry bed which was spanned by a culvert bridge.

AMERICAN BOAT

Riddled With Shot by Canadian Revenue Cutter-- Was Chased for Hours in an Endeavor to Effect Capture--Cause of Trouble.

Erie, Aug. 13.—(Bulletin)—Captain Schau, the fisherman whose boat was shot at by the Canadian patrol boat, Petrel, says he was in United States waters when he was attacked and that the Petrel made a "dastardly attempt to sink us." He says he has retained counsel and will take the matter to the state department.

Erie, Pa. Aug. 13.—The Silver Spray, a fishing boat owned here, came into port yesterday afternoon in a badly shattered condition, due to an encounter in mid-lake about noon with the Canadian revenue cutter Petrel.

The Canadian authorities have had trouble with American fishermen for years, who were poaching on their side of the lake and the Petrel is kept constantly on the lookout for them.

About noon she came upon the Silver Spray on the Canadian side of the lake and at once ordered Capt. Chis Chau to stop. The Petrel is a strong steel craft and it is said attempted to ram the American boat before she could comply with the former's order. Captain Chau, remembering the fate of several other boats from this side, which had been captured and confiscated, two from Erie, only last season, decided to try to escape and started ahead at full speed.

The captain of the Petrel when he saw that the Silver Spray was trying to get away, opened fire with all the guns he had on board, and before he

WAITED

Thirty-One Years for the Return of His Wife Before Applying for Divorce.

Cleveland, O., Aug. 13.—Jeremias Doree waited 29 years and then his patience was exhausted. Now he has filed a petition for divorce, alleging willful absence.

Thirty-one years ago he was married to Amelia Doree. The ceremony took place at Ottawa, Canada. The young people removed to Cleveland and began housekeeping on Detroit street. At the end of two years domestic bliss has been replaced by strife. One night Doree returned to his home to find it vacant. His wife had deserted him, he alleges.

Since that day he has neither seen nor heard from her. He says that he has tried in vain to find her so that a reconciliation could be brought about. He has accumulated considerable property from his savings, and it was his hope to share this with the woman he had as his life partner. Becoming convinced that Mrs. Doree would never return, he filed the action in order to cut her out of any further rights that she might have in the estate.

They had no children. Doree says that the property will go to his nieces and nephews.

POISONED

Beef Causes Fifty Persons to Become Ill at Ashburn, Va.—The Beef from Cold Storage.

Washington, Aug. 13.—A remarkable case of ptomaine poisoning is reported from Ashburn, Va., some 20 miles outside Washington. A large number of persons had gathered to attend the sale of a dairy farm owned by Senator Stewart, of Nevada. The senator served the prospective buyers a light luncheon consisting of coffee, ham and beef sandwiches. Shortly afterwards at least fifty persons were taken violently ill, suffering from ptomaine poisoning. One after another they fell to the ground, writhing in agony. Horsemen were dispatched in all directions for doctors and a number responded and took prompt measures to relieve the sufferers. In a statement issued at 11 o'clock doctors report their patients out of danger, although many still are quite ill.

An investigation developed the fact that the beef which had been purchased in Washington and kept in the cold storage for several days was the cause of the trouble.

MONEY

Amounting to Several Million Francs Said to Have Been Found in the Pope's Apartments.

London, Aug. 13.—A dispatch to the Central News from Rome says that Cardinals Rampolla, Mocenni executives of the estate of the late Pope Leo XIII., assisted by Major Domo Cagnano, opened the apartments of the late pontiff today and found in addition to many valuable articles, money amounting to several millions of francs.

FORMER OHIOAN, Who Became Prominent in the West, Succumbs to Disease.

Portland, Ore., Aug. 13.—John Reed, one of Washington's most prominent public men, died here aged 45. Mr. Reed was born in Cambridge, Ohio, in 1858, coming West and settling in Washington in 1878 at Yakima, which city he has ever since been identified both as business man and as city official. He was one of Yakima's first Councilmen and was Mayor in 1893.

Several Killed.

Constantinople, Aug. 13.—Advices received here today state that a number of Turkish soldiers were attacked by the insurgents at the village of Prileptzi, and that several insurgents were killed.

There were encounters between the Turkish troops and the rebels also at Voden and Volentiza. A detachment of 150 men under one of Chief Sarafoff's lieutenants claim to have defeated the Turks with a loss to the Turks of 140 in killed and wounded.

PARRY

SAYS THAT ORGANIZED LABOR IS LAWLESS.

The President of Manufacturers' Association Delivered an Address at Chautauqua.

Chautauqua, N. Y., Aug. 13.—Before the Chautauqua assembly today, D. M. Parry, president of the National Manufacturing Association, spoke on the mob spirit in America. He said while there were mobs of all kinds the most dangerous was the mob of organized labor. He charged that organized labor as conducted today is a lawless organization.

NO MORE

WHIPPING OF CONVICT WOMEN IN THE SOUTH.

Legislature Passes Bill Forbidding the Use of the Lash on Females. Warden Discharged.

Atlanta, Ga., Aug. 13.—Warden Allagood will be discharged from his position at the state prison farm, and there will be no more whipping of female convicts in Georgia as a result of the story told by Mamie De Crist to the investigation committee.

That story alleging that she was whipped because she rejected the amorous advances of Warden Allagood has caused such a shock throughout the state as has never before been experienced.

When the legislature convened yesterday in response to hundreds of telegrams denouncing Allagood's brutality, a resolution was immediately passed forbidding that the lash should be used on female convicts.

Governor Terrell has requested that the prison commission discharge Allagood and this request will undoubtedly be granted.

The public is divided as to the truth of the woman's charge that she was improperly approached by Warden Allagood, but whether the conduct of the woman was good or bad, whether her character was blameworthy or spotless, whether she has told the truth or not, these questions are not being argued for the present.

A white woman has been flogged by a white man, one a convict at the mercy of a man clothed with authority of the law, the other the man above all others supposed to see that the pitiful creatures under his charge are humanely treated.

It is also probable that Mamie De Crist will be pardoned and it is certain that the developments in her case will eliminate many of the brutalities which have disgraced Georgia's convict system.

SIX YEARS

The Pair Corresponded and They Will Meet for the First Time at the Marriage Altar.

Frankfort, Ky., Aug. 13.—S. M. Presnal, an oil operator of Breazett county, Texas and Miss Emma Bennett an accomplished and pretty young woman of Gist, Henry County, will be married today after a correspondence of six years, though the couple had never met before yesterday. The engagement came about in a romance through young Clements, a friend of Presnal, who was associated with him in Texas six years ago.

On leaving for home Presnal told Clements he had heard of the fame of Kentucky's pretty women and that he would be pleased if he would place him in correspondence with an eligible and fit companion possessing the charms for which they were noted.

Presnal was advised to address Miss Bennett and the courtship followed. Pictures were exchanged and on meeting the couple were mutually pleased. They will leave today for Huston, Texas, where they will make their future home. Presnal is about 35 years of age, prepossessing in appearance and is said to be a man of wealth.

Corbett and Jeff.

San Francisco, Cal., Aug. 13.—Corbett and Jeffries on the verge of the big battle tomorrow night, are loafing today. All talk about Jeffries being out of condition is said by the wise ones to be given out by those who want better betting odds on Jeffries than 2 to 1, where the odds still stand. The sale of seats, it is now certain will be over \$50,000.

FURNITURE DESTROYED.

Grand Rapids, Mich., Aug. 13.—Fire destroyed Radcliffe & Co.'s four-story brick warehouse, entailing a loss of over \$100,000. The building was filled with valuable furniture owned by local dealers.

EXTERMINATION

Of the Jews in Kishenev Was Planned Says the British Consul General at Odessa.

London, Aug. 13.—A dispatch from the British Consul General at Odessa, forwarding the report made by the British Vice Consul at Odessa, V. Bosanquet, who was sent specially to Kishenev to obtain the facts regarding the recent anti-Jewish riots there, is published here. The report, which is dated July 28, generally agrees with the cabled stories of the occurrences, though showing that there were some exaggerations as to the torture inflicted on the victims. It says:

"The area of the disturbances comprised two thirds of the town of Kishenev. The murders all occurred on Monday, the second day of the disturbances. They were perpetrated simultaneously by bands of rioters in different parts of the town, showing a prearranged conspiracy to exterminate the Jews. The local authorities took no effective step to stop the riots. The soldiers were passive if not sympathetic spectators. The police contented themselves with the arrest of minor criminals."

Mr. Bosanquet places the Jewish victims at 41 killed and 203 wounded, while among the Christians one was killed and 68 wounded. Official inquiries, he says, show that three women were violated, but this may well represent a small fraction of the actual number, since the Jewish women naturally remain silent for their own sakes, as under the Moslem law divorce must follow violation. The Vice Consul heard of the assault of a girl 12 years old, and of others aged 13, but this was only hearsay. Mutilation and deliberate torture of the victims, he says, does not seem to have been practiced. Though there were undoubtedly great barbarities, he only knows of one case of mutilation, when a man's life was put out with a nail. He heard stories of mutilation after death, and of a child being torn limb from limb, but he considers the latter story to be improbable, considering that only two little children appear to have perished.

"About 880 rioters were arrested and 308 were punished on minor charges, while 246 were acquitted. At Tiraspol 860 rioters will be tried in October of which number 100 are charged with murder in addition to other crimes. If they are found guilty they will be sentenced to penal servitude on the Island of Sakhalin."

WITH THE JURY

The Fate of Jett and White Now Rests--Arguments In The Celebrated Kentucky Trial Ended Thursday Morning at Cynthiana.

Cynthiana, Ky., Aug. 13.—In the Jett-White trial Judge Frye closed his argument at 10:48 this morning after arguing White's connection with the case. The jury was almost immediately charged and sent to the jury room. The sheriff and one deputy were ordered to remain at the door. Two deputies were left with the prisoners and others were instructed to allow no one to loiter in the court house yard or in front of the building.

Cynthiana, Ky., Aug. 13.—At the opening of court this morning Commonwealth's Attorney Fryer resumed his argument for the prosecution, in the Jett-White case, he having spoken two hours Wednesday afternoon. He showed that Ewen had every reason in the world to save himself from any danger by swearing as Hargis asked him to do, but he chose to risk his life rather than perjure his soul. He said he was surprised that the defense had attempted to show that Marcum was a Republican and Hargis a Democrat, and said the attempt to bring politics into the case was an insult to the jurors. "I would rather blot Kentucky off the map of civilization," than to have it said that a jury would allow politics to be a motive influencing its verdict. In an assassination trial, gentlemen, that each one of you is a Democrat, but I know that such arguments cannot influence your verdict." He declared that Judge Hargis, Sheriff Callahan and his deputies were in full view of the assassinations ready to swear to an alibi and five minutes after the murder circulated the report that Curt Jett was innocent because they knew he was outside the court house. He said Jett was not arrested until he went to another county, because the county of Jett's of Breathitt stood behind the assassin and after Jett was in Winchester (Hargis) could sit in judgement in this case. From that day he has been trying with all his money and influence to screen the assassin.

When buried at public expense today. An imposing funeral ceremony was held in the presence of the families of the deceased and the authorities. Premier Combes and M. Beville the president of the municipal council, delivered appropriate addresses.

EASTERN BELLE

To Become the Bride of Gordon Hughes, Son of Col. Jos. Hughes, of Hamilton.

Baltimore, Md., Aug. 13.—Miss May Brown, the only daughter of former Governor Frank Brown, of this state, is soon to marry Gordon T. Hughes, a young lawyer of New York City. Miss Brown inherited a fortune from her mother and made her debut three seasons ago. She has spent her summers abroad prior to this year, and received much attention from foreign noblemen. Her most determined foreign suitor was Baron Rudolph Lehman, reputed to be one of the richest young men in Holland, who came to this country with 27 trunks and two servants and spent a small fortune in trying to win her hand. He returned almost brokenhearted.

Mr. Hughes is a Harvard graduate and a son of Colonel Joseph B. Hughes, of Hamilton, O., who was Consul at Birmingham, England, under Cleveland's first administration. He is a member of several leading New York clubs and was for a time secretary of Justice Horace Gray of the United States Supreme court.

MORE VICTIMS BURIED.
Paris, Aug. 13.—The bodies of 19 more victims of the tunnel disaster after the negro was hung.

RUIN AND DEATH

On the Island of Jamaica as Result of the Hurricane Which Devastated the Entire Eastern End of the Island.

Kingston, Jamaica, Aug. 13.—The weather bureau issued the following bulletin this morning: "The West India storm is now in the southeast portion of the Gulf of Mexico and still beyond the limit of observation. It is apparently recurring to the northward in the direction of the middle gulf coast and hurricane and storm warnings have been continued from Port Eads to Charleston."

Kingston, Jamaica, Aug. 13.—The effects of the hurricane upon the island of Jamaica were greater than at first believed. Port Antonio, on the north coast, was completely overwhelmed. Only six houses were left standing there. The United Fruit company's wharves, offices, hotel and plantations were utterly demolished. Five of the company's steamers, including the Sierra Leone, were driven ashore, but are important damage.

The land telegraph connection with Santiago, which was repeatedly interrupted has been restored. There was some destruction of crops and small buildings in the province of Pinar del Rio, where the wind appears to have been strongest. Cable connections with all the islands of the West Indies are intact with the exception of Jamaica, and Martinique, Guadeloupe and Dominica.

BANK EMPLOYEE

STEALS \$45,000

Duluth, Minn., Aug. 13.—E. E. Johnson, bookkeeper for the Commercial Banking company of Duluth, was arrested last evening on a warrant charging him with the embezzlement of \$45,000 of the bank's money.

When placed in jail, Johnson admitted his guilt and said that the peculation had extended over a period of eight months and that he had been able to deceive his employers by a manipulation of the books.

He said that he had squandered the money in stock speculation. Johnson is 28 years old, unmarried and the son of J. P. Johnson, clerk of the court of St. Louis county.

RIOTERS INDICTED.

Danville, Ill., Aug. 13.—The grand jury adjourned Wednesday evening after having indicted about 25 of the jail rioters on three counts each, all felonies. Winfield Baker, of Kentuck, it is charged was the leader of the mob after the negro was hung.

Latest Fashion Notes.

Long Coat of Black Taffeta.

This long coat of black taffeta is lined to the waist with white taffeta, and unlined from the waist down. The three capes are unlined and are most effectively stitched with white Cordelli stitching silk. The front can be left fly open or closed, giving the garment a semi-tight appearance. A handsome finish is given to the fronts which are faced with four inch bands of taffeta covered with cream tinted lace. A cord and tassel tied in a knot finished the neck, which has a standing collar slopes down at the front.

Capes on long coats are very smart just now, double and often triple capes appearing just below the velvet collar. These coats are very carefully fitted about the shoulders although for the rest they seem somewhat shapeless. The capes are often faced with silk, sometimes white with black dots and sometimes a solid color with white rank among the most economical of all foods. These coats are often of white, or of tan, or of dark blue, and are very useful as well as smart.

These views will be unusually fine. The firm in Chicago from whom they are obtained assures the committee that they are all taken either from life models or from scenery painted especially for this subject, designed to make a magnificent showing upon the canvas. No expense will be spared to make this service the grandest of the series. On last Sunday evening the church was packed to the doors, and there was considerable crowding. We will say for the benefit of those present that the ushers will try to avoid this in the future and arrange for ample seating capacity. Special music, with illustrated stereopticon slides. Service begins promptly at 7:30. We are always glad to welcome you. The Committee.

Uses of the Sermon.

Teddy and Mary had been taken to church for the first time, and on the way home they discussed what they had heard and seen.

"Well, now," said Teddy with a frown, "I'd like to know what the sermon was for, anyhow."

"Why, Teddy," said little Mary, with a superior air, "don't you know that yet? It's to give the singers a rest, of course."—New York Times.

What Could He Mean?

"Yes," said Mrs. Suburba, "Mr. Suburba and I knew each other many years ago. We made mud pies together."

"So I understand," retorted Mrs. Acldy. "He said the other day that he thought you must have them around the house still, judging from some he had eaten recently."—Cincinnati Commercial Tribune.

Out of the Mouths of Babies.

"Say, mamma," queried four-year-old Johnny, who had been deputed to look after the baby, "was everybody little once?"

"Yes, dear," was the reply.

"Then who took care of 'em?" asked the small martyr.—St. Louis Post-Dispatch.

Merely Incidental.

"Remember," said the earnest friend, "that you are making history."

"That's true," answered Senator Sorghum, "but I can't afford to pay too much attention to that part of my work. History doesn't pay any dividends."—Washington Star.

TURN THE RASCALS OUT!

Commenting upon the guesses being made as to the Republican nominee for vice president, the New York Press guesses that the rank and file of the Republican party prefer to postpone that discussion until a more pressing matter is disposed of. The Press which, by the way, is a Republican paper, says:

"There will be plenty of time to talk about a running mate for President Roosevelt after the postal service has been rid of the spoilsman who infest it—the same spoilsman who for so long have manipulated the national party organization for their own purposes. When these men are driven out of the high government and party stations the discussion of campaign matters can then be taken up by Republicans with a little more enthusiasm and much more propriety than at present."

AS TO "ASSET CURRENCY."

A strange story comes from Providence, R. I., to the effect that Nelson W. Aldrich, chairman of the senate finance committee, and his conferees, Senators Platt and Allison are surrounded by armed guards and two fierce bull dogs, while they are blocking out a new currency bill to be presented to Congress at a special session to be convened directly following the elections this fall. Just why this extraordinary precaution is taken is not wholly apparent. It is true that before the bull dogs and soldiers went on guard Chairman Aldrich had full conferences with "J. Pierpont Morgan, Mark Hanna and a dozen New York financiers, who are heartily in favor of 'asset currency,' to be controlled by the National banks." These dignitaries may exclude the people at large by such extraordinary precautions but they cannot forever hide from them. The people are jealous of their rights and will be heard before final action is taken. From the present tone of affairs in Wall street there seems to be a greater lack of "confidence" than when the Republican financiers and politicians in 1896 and 1900 howled so much about the menace of Bryanism. How much safer is "asset currency" than greenbacks, or even free silver? If the Democrats were proposing "asset currency" it would be howled down as the wildest of a wild cat scheme.

BOND ISSUE

VOTE TO BE TAKEN TOMORROW IN NEWARK.

Reasons Why the Proposition Should Carry—Four Voting Places Announced Below.

Tomorrow is the date for the special election in Newark. This election is for the purpose of deciding whether the city shall issue bonds in the sum of \$50,000 for the payment of debts already incurred.

As stated in these columns recently, it will be to the interest of the taxpayers of Newark to vote for this bond issue for this reason: The debt is already contracted and must be paid. If it is not paid by a bond issue it will be paid with borrowed money. Four per cent bonds can be sold, whereas the city is obliged to pay 6 per cent for money borrowed from the local banks.

Newark in common with many other Ohio cities has for years been spending money six months in advance of its receipts; in other words it has anticipated the tax collection. The new municipal code forbids this. Hence the necessity of borrowing money or issuing bonds.

There is no politics in the issue. For example, the American-Tribune in urging a favorable vote on the question has this to say:

There is an inclination on the part of some citizens to make a political issue of the matter. This would seem to be erroneous. It is a plain business proposition and affects every taxpayer alike, be he Democrat or Republican. It is merely a question of whether it is wiser to carry the present debt at 6 per cent, the principal to be paid at some indefinite period, or whether to borrow \$50,000 at 4 per cent, and pay it off in indefinitely small instalments in twenty or twenty-five years. The proposition doesn't need a diagram.

For this special election there will be but four voting places tomorrow, one in each ward. The voting places are as follows:

First Ward—Harrington's room on East Main street.

Second Ward—Central Fire Department.

Third Ward—New building occupying the site of the Davis blacksmith shop on the corner of West Main and Eighth streets.

Fourth Ward—Hocver street school building.

It will be noted that a change has been announced in the Fourth ward voting place.

The proposition requires a two-third vote to carry.

NEW USE FOR AIR SHIPS

France to Test War Value of Santos-Dumont's Balloon.

WE WILL TRY TO ENTER A TOWN.

French Minister of War Has Accepted Offer of Noted Aeronaut's Aerial Fleet For Use in Time of War—Inventor Stipulates That They Must Never Be Used Against North and South American Republics.

The New York Herald publishes the following from its Paris correspondent: Is the world within measurable distance of the time when battles will be fought up in the clouds as well as on land and beneath the surface of the sea?

It would seem so at any rate, as M. Santos-Dumont recently received a visit at his balloon sheds in Neuilly, France, of a delegation representing General Andre, the French minister of war, and composed of Major M. Hirschauer, chief of the French military aeronautical department, and Lieutenant Colonel Bourgeois, sous chef of General Andre's cabinet.

For two hours these officers remained with M. Santos-Dumont examining his great balloon No. 10, trying the sixty horse power motor, starting and stopping the immense propeller and studying every detail of the air ship with minute care and tireless patience.

The opinion expressed by the representatives of the ministry of war was so unreservedly favorable that a practical test of a novel character—which, if successful, will be conclusive of the air ship's military value—will soon take place.

The test will consist of an attempt to leave Paris and enter one of the French frontier towns, Nancy or Belfort, the same day by air ship. Naturally the entire journey will not be made in the balloon.

M. Santos-Dumont's idea for this interesting experiment is to take a train from Paris in the early morning with his balloon, tubes of hydrogen gas to fill it and all the machinery and instruments in a special wagon.

At some station a short distance from, say, Nancy the wagon will be unhitched from the train and a score or so of soldiers and accompanying officers, representing the ministry of war, will unload the balloon and its appliances and transport it to the nearest available open space, where, under M. Santos-Dumont's directions, the balloon will be inflated and prepared for the ascent.

M. Santos-Dumont estimates that within two hours of the time of leaving the train everything will be ready, and he will then make an attempt to fly over the town that may be selected for the experiment.

The visit of Lieutenant Colonel Bourgeois and Major Hirschauer the other day to M. Santos-Dumont's balloon shed, when the details of the foregoing military aeronautical maneuver were discussed, was one of the consequences of a letter written by M. Santos-Dumont to General Andre after the review of July 14.

In this letter, after referring to the sympathetic reception given him and his air ship upon their appearance over the review ground at Longchamps, M. Santos-Dumont offered his air ships and his services to France in the event of war with any country other than the republics of North and South America, joyfully adding that in the very improbable case of war between France and Brazil he should put himself at the disposal of his native country.

In reply to the letter of M. Santos-Dumont the French minister of war wrote that in the course of the review of July 14 he had noticed and admired the case and certainly with which the balloon was maneuvered under the aeronaut's direction.

General Andre also said that he would be very happy to accept the offer which Santos-Dumont has made to put his aerial flotilla at the disposal of the government of the French republic.

BIG PRICE FOR A FLEA.

Charles Rothschild Offers \$5,000 For One From an Arctic Fox.

The Hon. Charles Rothschild of London is careful about his expenditures when tempted to buy horses or automobiles, but there is no limit to his generosity when he has an opportunity to add to his collection of fleas, said to be the largest, completest and best organized in the world, says the New York Evening Journal. Mr. Rothschild offers a prize of \$5,000 to the man who brings him a healthy specimen of the arctic fox flea, an insect earnestly desired to round out his collection. Mr. Rothschild wants this particular flea to add to the collection of these insects in the famous zoological museum in Tring park, where there are thousands of fleas which have been obtained from birds and beasts in all parts of the world.

He commissioned the arctic whaler Forgetmenot to hunt for the polar flea. This hunt was futile, hence the offer of a \$5,000 reward for the much desired insect.

Our Precious Stones Product.

The illustrated report to the United States geological survey on precious stones for 1902 by George F. Kunz shows that the production of precious stones in this country in 1902 aggregated \$318,300 in value as compared with \$289,050 in 1901 and with \$333,170 in 1900. The total value of the precious stones imported into the United States during 1902 was \$25,412,776, which sum was \$550,209 more than that for the previous year and twelve times the value of the importations in 1900.

PERILS OF THE X RAY.

Edison Says He Is Afraid of the New Light.

HIS EMPLOYEE LOST HAND AND ARM.

Famous Inventor Tells How Clarence Daily Was Injured by the Rays—Has Abandoned Search For Fluorescent Lamp, Finding His Sight Impaired by Experiments. Will Have Nothing to Do With Radium.

That impaired sight, cancerous disease and even death may come to him who is continuously exposed to or inexperienced in the use of Roentgen rays has been demonstrated in a pitiable manner in the laboratory of Thomas A. Edison at Orange, N. J. Clarence Daily, an assistant to the "Wizard of Menlo Park," has contributed an arm and a hand to this demonstration, while Mr. Edison himself suffers from the disturbed focus of one of his eyes through experiments with the mysterious light in an endeavor to find for it some commercial utility.

Mr. Edison was recently seen at his home in Llewellyn Park, Orange, by a New York World reporter and asked to tell the story of the experiment which disabled Daily and came near making Mr. Edison sightless.

"Don't talk to me about X rays," he said. "I am afraid of them. I stopped experimenting with them two years ago, when I came near losing my eyesight, and Daily, my assistant, practically lost the use of both of his arms. I am afraid of radium and polonium, too, and I don't want to monkey with them."

"Up to two years ago I was deeply interested in X rays. I used a fluorescent which I invented, a pyramidal box with one open end, the smaller, and a larger closed end, the covering being a chemical sheet against which the object to be examined is placed, the rays being focused upon it. I was making experiments in a dark room that I had constructed in one end of the laboratory. I was looking for an improved crystal, and there were daily results that fascinated me and kept my eye glued to the fluoroscope virtually all the time."

"I used my left eye, and one day when I came out of the dark room and closed my right eye for a moment everything looked double. I hastened to an oculist, who said that my eye was something over a foot out of focus. It is still imperfect, and I do not think that it will ever be entirely well."

"When I noticed the effect upon my eye I cautioned Daily. I told him that there was danger in the continuous use of the tubes, but he persisted because he was so enthusiastic upon the subject. The only thing that saved my eyesight was that I used a very weak tube, while Daily insisted in using the most powerful one he could find."

"The box of the fluoroscope only partially covered his face, so that the light fell upon his hair and made it fall out—that is, what was left of it after exposing his head to the light in a reckless way to illustrate its power. Parts of his hand and arm were also exposed to the action of the light."

"I am keeping him on the pay roll, although he is not able to do any work, and I expect to take care of him as long as he lives. I have sent him away on a vacation to Woodbridge, N. J., where the change may do him good."

"Speaking of radium, Mr. Edison, what is your opinion of it?" asked the reporter.

"I have had several pieces of it from Mme. Curie in Paris, and I have experimented with it. I do not see its commercial utility, but it opens up a great field of thought and scientific research. It overturns all the old theories of force and energy and has set scientists to thinking. Do I believe that it is the solution of perpetual motion? No. I have a peculiar theory about radium, and I believe it is the correct one."

"I believe that there is some mysterious ray pervading the universe that is fluorescing to it. In other words, that all its energy is not self constructed, but that there is a mysterious something in the atmosphere that scientists have not found that is drawing out those infinitesimal atoms and distributing them forcefully and indestructibly."

"Did you ever find any commercial utility in the X rays or radium?" "My researches, I might as well tell you now that I have abandoned them, were in the direction of making a fluorescent lamp. I obtained results which brought me each day nearer to the object of my desire. I found a crystal that was fluorescing 12,000 times, and I thought I had my lamp. Then came the question of practical use. I could make the lamp all right, but when I did so I found that it would kill everybody who would use it continuously."

"No. I do not want to know anything more about X rays. In the hands of experienced operators they are a valuable adjunct to surgery, locating as they do objects concealed from view, and making, for instance, the operation for appendicitis almost sure. But they are dangerous, deadly, in the hands of the inexperienced or even in the hands of the man who is using them continuously for experiment. There are two pretty good object lessons of this fact to be found in the Oranges."

The colored pharmacists of Virginia met recently and perfected an organization for their mutual advancement throughout the state, says the American Druggist. The organization will be known as the Virginia Association of Colored Pharmacists.

LAUNCH

BUILT BY WILLIAM KNEELAND IS CHRISTENED

On the Ohio Canal—Boat Propelled by Gasoline Engine Will Seat Nine People.

The first gasoline launch ever built and put on the canal in Newark, was completed and successfully christened at the Fourth street dock about 4:30 Wednesday afternoon, in the presence of a large crowd of spectators, who cheered the auspicious event and the ingenious builder.

The launch was constructed by William Kneeland, better known as "Patsy" Kneeland, along lines of his own, being assisted in the work by Fire Chief Bausch.

The boat has a capacity of 9 persons and the propelling power is furnished by a stern paddle wheel connected with a gasoline engine of a horse power and a half.

The trial trip was made from Fourth street to Sixth street, and the launch carried the following passengers: Patsy Kneeland, steersman; Louis Bausch, engineer; George Conlon, Walter Bausch, Joe Long, J. D. Bader and an Advocate man, and the trial was sufficient to demonstrate that with a few minor alterations Mr. Kneeland will have one of the best launches on Buckeye Lake, where he expects to take it.

After the trial trip a bottle of champagne was broken over the prow, and the health of all was drunk and best wishes for a successful career for the constructor and the work of his ingenuity.

CHECK SYSTEM

Inaugurated at Buckeye Lake—Coupon Interchangeable Tickets are Now on Sale There.

A new system has just been inaugurated at Buckeye Lake Park by General Manager J. R. Harrigan, which it is expected will meet with the hearty co-operation and approval of the patrons of that resort.

Instead of paying for the privileges of the park by giving cash to the attendant in charge of any one of the amusements, the patron purchases from one man coupon tickets of 5 cents each, which are interchangeable and will be redeemed at any place on the grounds.

These tickets are all sold at a central office and may be used in payment for a boat, a meal, refreshments, or any other of the many privileges.

It is expected that no cash be given any of the attendants, and when the new system gets to working the management feels sure that the public will be pleased with the change.

WAR
To Be Waged on Woodchucks and Rats by Granville Township Men in Near Future.

Granville, O., Aug. 13—The farmers in this section of the country have for some time past felt seriously the inroads of woodchucks, rats and other animals that have been making raids upon their chicken roosts, grain bins, etc. The farmers in some of the school districts of Granville township have determined to take decisive action in the matter toward destroying as many of the pests as possible, and accordingly the following challenge has been issued by the men of school districts Nos. 5 and 6 to the men of school districts No. 7 and 8, for an old fashioned woodchuck and rat hunt: Granville, O., Aug. 13, 1903. To the Men of School Districts No. 7 and 8. We, the committee for the men of school districts No. 5 and 6, challenge the men of districts No. 7 and 8 to a woodchuck and rat hunt, losers to pay for the supper.

GRANVILLE

WORK ON NEW HEATING PLANT FOR DENISON BEGINS.

Cost Will Be Nearly \$50,000—Budget of Up to Date News From the College Team.

Granville, O., Aug. 13.—The work of constructing the new power house for the heating plant of Denison University has already begun. The power house will be located on College street and will be equipped with powerful machines for forcing hot water through the radiators with which all the rooms of the college will be equipped. It is said that when completed the plant will cost between forty and fifty thousand dollars. James C. Linn of Newark has the contract.

The Duquesne dramatic company of Pittsburg, will arrive here Saturday and will stop at the Buxton House. On Monday they will go into rehearsal work at the Opera House, which will continue for two weeks.

Mrs. Russell Moore entertained a number of her friends on Wednesday with a picnic at Cat Run, in honor of her guest, Miss Saxon of Washington, D. C. The day was most pleasantly spent in games and other amusements and after returning in the evening a social time was had at the home of Mrs. Moore.

Mary, the six year old daughter of Thomas James of the Welsh Hills, playing at her home, fell, striking on her head and cutting a deep gash in her forehead, just above the temple. A doctor was called and sewed up the wound, which was a severe one.

One of the most enjoyable picnics of the season was the outing by a large number of Granville people at Cat Run, four miles north of Granville, on Tuesday. There was a splendid program of exercises which was seasoned with a sumptuous dinner and all who were present had a splendid time.

DeBow Bros., Granville's hustling and accommodating monument dealers, have just placed a fine monument in the Hill cemetery at Johnston for the deceased wife and son of John W. Green.

Squire E. J. Dorsey and Miss Lena Lockhart, one of the efficient teachers in the Columbus public schools, and Miss May Evans, drove over from Columbus and spent Sunday with Mr. and Mrs. I. H. DeBow.

Rudolph Cook, representative of Scott & Townsend, wholesale dealers in monuments, etc., of Berry, Va., was in town on Tuesday and called on DeBow Bros.

Mrs. T. B. Herndon of Columbus, visited friends in town a short time during the fore part of the week. Prof. Leigh, formerly superintendent of the Granville public schools, now connected with the public schools of Columbus, together with his family, were in town on Wednesday night.

Quite a number of the teachers who are in attendance at the Teachers' Institute in Newark, spent Wednesday evening in the village and took supper at the Buxton House.

Benjamin Ferguson of Scottsdale, Pa., who has the contract for putting in the tile floors in the dormitories of Denison University, has commenced the work and will push it to a rapid completion.

Prof. W. E. Wells of Antioch College, Yellow Springs, O., together with his wife and daughter, Margaret, are spending several weeks here with the Professor's mother, Mrs. Wells.

The Misses Elizabeth and Ellen Johnson of Parkersburg, W. Va., have been the guests of the Misses Adkins. They came here to attend the marriage of their brother, Prof. D. W. Johnson, to Miss Alice Adkins.

Mrs. Joseph Woodbury, who has been visiting her daughter, Mrs. Cal Pence, in Columbus, has returned to Granville.

Rev. Daniel Shepardson, Mrs. Ross Smith and Mrs. Florence Taggart of Philadelphia, comprised a party that came up from Newark and took supper at the Buxton.

Mr. and Mrs. John Marlowe have gone to Niagara Falls to visit their son Wayland for a short time.

Miss Flo Munson of Chicago, is the guest of Mrs. Edith Schoonover, at her home on Main street.

DR. DORSEY

INTERVIEWED REGARDING THE "SUN" DANCE.

Former Granville Man Says He Knew Nothing of the Torture Till It Had Been Started.

A few days ago the Advocate printed a special dispatch telegraphed to this paper from Washington telling of charges that had been preferred against Dr. Geo. A. Dorsey, formerly of Granville, this county. It was alleged Dr. Dorsey and another scientist had paid an Indian a sum of money to torture himself during a "sun" dance.

The following Associated Press dispatch from Los Angeles gives Dr. Dorsey's version of the affair and shows that Dr. Dorsey did not know of the Indian's self torture until after it had been started. Here is the dispatch:

Los Angeles, Cal., Aug. 13.—Dr. Geo. A. Dorsey, curator of anthropology of the Field Columbian Museum of Chicago, who has just arrived here, has given out an interview concerning the published accounts of his recent visit with Doctor Moore to the Cheyenne Indians in Oklahoma.

Doctor Dorsey contends that the "sun dance" is religion to the Indians and that they have a right to celebrate it under the clause of the constitution granting American citizens freedom of worship. With regard to statements made to the Indian bureau at Washington by Mr. Seger, superintendent of the reservation school, Doctor Dorsey makes charges of duplicity and ignorance and says that Seger's allegations were not disinterested.

"Concerning the torture itself which Mr. Seger describes," said Dr. Dorsey, "not only did Doctor Moore and myself not instigate it but we actually knew nothing about it until the Indian was well on his way, making his rounds of the camp circle. This torture followed, by the way, on the morning following the first rites of the ceremony and had nothing to do with the performance of the so-called 'sun dance'."

PATENT

ISSUED TO NEWARK MAN PROVES PROFITABLE.

Channing Thompson Has a Valuable Invention Now in Practical Use on Railway Trains.

Mr. Channing Thompson, formerly of this city, now at Canal Dover, has begun to realize quite handsomely on a patent recently secured by him, and the indications are, that the invention will be put in very general use on the railroads of the United States.

The invention is an improved slide bearing for freight cars, and is made of iron weighing about 70 pounds, about 18 inches long and 6 inches wide and is placed between the tracks and the body of freight cars.

The claim for the invention is that it equalizes the weight on the track, making an equal distribution of the weight on all parts of the track. It is claimed that by the use of Mr. Thompson's improvement the tracks are saved and their life prolonged to a great extent.

The new bearing is being manufactured by a Chicago railroad supply house, and Mr. Thompson has received several checks for large amounts as royalty on his patent.

LUMBERMEN

Of Northern Ohio Will Organize to Maintain Prices—Newark Man is Chosen Secretary.

Canton, O., Aug. 13.—About 100 of the leading lumber dealers of Northern Ohio are attending a conference in Canton for the purpose of forming a district organization of lumber dealers on the same plan as the Union Association of Lumbermen, composed of dealers in Ohio, Pennsylvania, Kentucky and West Virginia. B. Frank Weybrecht of Alliance, was chosen chairman and J. I. Edgerly of Newark secretary of the temporary organization. A committee composed of Daniel Hotwick of Canton; H. D. Brown of Massillon, and H. D. Tellerton of Alliance, was appointed to take steps for forming a permanent organization. The afternoon session was devoted to discussions of matters interesting to the lumbermen. In the evening the dealers were entertained by a trolley ride. The purpose of the organization is to hold uniform price lists and promote friendship between competitors.

MOTHER

Expects to Go to Columbus to Plead for the Lives of Her Sons, the Wade Boys.

Dayton, Aug. 13.—Mrs. Louis Smith, the mother of Al and Ben Wade, sentenced to die in the electrical chair, will go to Columbus Sunday in expectation of seeing Governor Naft and to intercede for the lives of her sons.

True to the mother's instinct, Mrs. Smith clings to her sons and remembers only the prattling babes of less than 30 years ago.

She says the father of the boys, who has been dead a number of years, was a good man and that the boys had a careful training.

Their downfall is attributed by Mrs. Smith to the strange and sinister influence of one of the gang with which the Wade boys were connected.

WEDDINGS

MR. THOMPSON SAYS DAUGHTER DID NOT ELOPE.

Married Thursday Night in Pittsburg—Three Other Marriages Took Place Here Thursday Evening.

Mr. Frank A. Thompson, 26 West Harrison street, denies the report published in another paper, that his daughter eloped to Cincinnati Wednesday to marry Mr. J. F. Kris.

Mr. Thompson says that he personally took his daughter's trunk to the B. & O. station at noon, and bade her good-bye as the train carried her to Pittsburg, where, according to a telegram just received by the bride's mother, Miss Lucile Thompson was married Wednesday night at 9 o'clock to Mr. J. F. Kris.

Mr. Thompson said that he had no objections whatever to the wedding and states that Mr. Kris who has been visiting his home for some time, has always been welcome.

Mr. Kris, who is known as "Jack" Kris, is an electrical engineer for the B. & O. railroad company, now stationed at Pittsburg.

MARKHAM-JEWELL.

Mr. James Markham, a well known machinist employed at the Scheidler machine works this city, who is the youngest son of Mr. and Mrs. Richard Markham, was married on Wednesday evening at 7:30 to Miss Nellie Pearl Jewell, a most estimable young lady. The ceremony took place at the home of the bride's parents, Mr. and Mrs. Wm. Jewell, 280 Lawrence street, the Rev. J. C. Schindler officiating. The newly married couple, who have the best wishes of their many friends, will make their home at 280 Lawrence street.

MOORE-WRAY.

A very pretty home wedding took place on Wednesday night in which the contracting parties were Mr. J. W. Moore, a well known conductor on the Newark & Granville electric railway, and Miss Cora B. Wray, daughter of Mr. and Mrs. James Wray. The ceremony took place at the home of the bride on Western avenue, and was performed by the Rev. L. S. Boyce, pastor of the First Presbyterian church, in the presence of a few of the intimate friends of the contracting parties. The newly married couple will make their home for the present with the parents of the bride. They have the best wishes of all their friends.

REXROTH-HORN.

Wednesday evening at 8 o'clock the wedding ceremony that made Mr. Harry L. Rexroth, of the Carl & Seymour South side boot and shoe store, and Miss Nellie Grace Horn, the charming daughter of Mr. and Mrs. J. E. Horn, of 205 Cedar street, man and wife, was solemnized at the home of the bride, the Rev. L. C. Sparks, pastor of the First M. E. church, of this city, officiating. The happy couple took their places under a canopy of smilax and roses in the parlor, where the beautiful ring ceremony that made them one, was performed. The bride looked beautiful in a costume of white chiffon and lace. The maid of honor, Miss Mary Raymond of Indianapolis, was attired in white silk, while the ring bearer, Miss Elizabeth Evans of Granville, wore a costume of blue silk. After the ceremony had been concluded and congratulations showered on the happy couple a wedding supper was served. The newly wedded pair left Thursday morning for a trip up the lakes and will be gone about ten days. There were about 40 persons present, those out of town being Mrs. Samanah Hollinger, Mr. and Mrs. John Evans and daughter of Granville, Mrs. Martha V. Horn of Utica; Mrs. Harry Raymond and daughter, Mary, of Indianapolis; Charles Horn of Alexandria. The happy couple were the recipients of a large number of handsome and useful presents from friends in Detroit, Bucyrus, Galion and other places.

THE COURTS.

THREE DIVORCE SUITS FILED IN PROBATE.

Budget of Court Notes and Real Estate Transfers—Marriage Licenses—Court House.

Lona May Bodle has filed a petition in the Probate court asking for a decree of divorce from her husband, Sherman Bodle. The parties were married December 30, 1891, and three children are now living, the fruit of the marriage, Charles, aged 11 years; Bessie, aged 10 years, and George, aged 5 years. The plaintiff charges the defendant with infidelity. Smythe & Smythe are attorneys for the plaintiff.

Another Divorce Suit.

Attorneys Smythe & Smythe, on behalf of John W. Painter, has filed his petition for divorce from his wife Luthania Painter, in the Probate court. The parties were married in September, 1896, and no children were born of the marriage. For cause of action the plaintiff charges defendant with infidelity, abandonment and gross neglect of duty.

And Still Another

Laura A. Hall, by her attorney, E. S. Randolph, has filed her petition in the Probate court, praying for a divorce from her husband, Charles Hall. The parties were married November 17, 1895, at Pittsfield, Ill., and one child, Alpha, now six years old, was born of the marriage. For cause of action the plaintiff says that for the past three years the defendant has been guilty of gross neglect of duty in that by reason of his idleness and dissipation he has wilfully failed and neglected to provide her and their child with food and clothing, and the common necessities of life, so that she has been compelled to live by her own labor and on the assistance and charity rendered by her relatives.

Account Filed.

TURNED GUN

TO BEAT SQUIRREL WHICH HE HAD SHOT.

The Gun Went Off and Instantly Killed Wm. Suntheimer in Coshocton County Tuesday.

An Advocate special tells of the tragic death of Wm. Suntheimer Thursday morning in Coshocton county. Mr. Suntheimer is well known in Eastern Licking county. The dispatch follows: Coshocton, O., Aug. 13.—Wm. Suntheimer, 31 years of age, shot and killed himself accidentally this morning while hunting along Walnut creek near Strausburg with two companions. Mr. Suntheimer, who was a clerk at Strausburg, had just shot and wounded a squirrel which fell to the ground and was making for a pile of brush. In his anxiety to capture the squirrel, Suntheimer turned his gun and began to strike at the escaping animal with the butt of his gun. In this manner the gun went off and the young man was instantly killed.

HE WILL RECOVER.

Coshocton, O., Aug. 13.—The young Hungarian who made a desperate effort to kill himself with a dull penknife in prison the other day, recovered sufficiently today to be able to go to his home in West Virginia. It is said that he will recover, but that his mind will be affected.

SOLDIERS ARRIVING.

New Krag Guns Will be Issued to Men in Camp Next Week.

Governor to Ride a Fine Horse—Gen. Speaks Here Working Hard—Advance Detail—Work of Engineers—Camp Will Soon Open.

The soldiers are beginning to arrive at the state encampment ground and the preliminaries for next week's military camp embracing the entire citizen soldiery of the state are nearing completion.

Thursday morning Captain Blais arrived from Cleveland with a detail of ten men to unload the battery guns and other equipment and to prepare for the men. The Battery will leave Cleveland Saturday night at 9:30 and arrive in camp at 4 o'clock Sunday morning.

Work of Engineers.

The advance detail of the Cleveland Engineers also came Thursday morning in charge of Lts. O. C. Penny and Walter S. MacAron. The detail consisted of Sergeant Warnke, Private Melick, Feasler, Molosky and Staeschak. The Engineers this year will have more important work than heretofore. In the first place they will run the lines for the company streets, a new feature. They will the coming week make plans and specifications for building earthworks, constructing emergency bridges, trestles and digging trenches. They will it is said also experiment with explosives in the excavation of subterranean mines.

Gen. Speaks and Col. Taylor were on the ground Thursday superintending the erection of temporary stables near the new location of the permanent stables for use of the artillery and cavalry horses. Gen. Speaks said that he and Gen. McMaken with their staffs would be on the ground to remain all week, next Sunday morning.

Gen. Speaks said that the tentage and other equipment will be issued to the various quartermasters who in turn will distribute it to the men. Only the division, brigade and regimental headquarters tents are to be pitched in advance. The rest of the tents, it is said will be put up by the men upon their arrival. This was announced last year but by the time the troops got in nearly all of the tents were up.

The Signal corps will come Saturday to establish a system of 50 telephones in camp. The Signal corps consists of a company of 45 men from Columbus.

J. M. Riddell, regimental quartermaster sergeant of the First (Cincinnati) regiment, arrived Thursday and bought a lot of lumber to build cook shacks.

New Guns After All.

A telegram to the Advocate from Columbus Thursday afternoon says that the new guns for the guard have arrived. Here is the telegram: "Governor Nash today received 2360 new Krag-Jorgensen guns from the war department for the Ohio National Guard. They came too late to be shipped to the several companies before the division camp, at Newark, but Major General Dick insists on them being issued, and they will be distributed at the Newark camp ground next week after the troops arrive. The shipment discloses that nine companies of the militia were found not to be up to the standard by the recent United States army inspectors, and these will have to do without the new guns until a later date."

Captain A. E. B. Stevens, quartermaster of the First regiment, will be in camp early Saturday morning, coming from Cincinnati.

Herrick is Coming.

The presence of Colonel Myron T. Herrick of Cleveland, Republican candidate for governor, at the division encampment of the Ohio National Guard has been assured at least for a day.

An official of the adjutant general's department, who talked to Colonel Herrick Tuesday, was assured that he hoped to attend camp.

Captain Burns, post quartermaster sergeant of the division, employed at the statehouse, has been at the camp ground for several days looking after the shipments of camp and garrison equipment.

This includes camp supplies outside of those furnished the commissary department.

Governor's Fine Horse.

Miss Daisy Cherry, one of Newark's very accomplished horsewomen, is the owner of a beautiful sorrel mare,

manner, proceeded to announce important military news that will be read with interest all over Ohio.

It is true dignity that realizes necessity, and the honor of manual labor. That is the kind possessed by General Speaks and Col. Taylor, which with a total absence of snobbery or false pride in title, rank or position, makes them true leaders of men, and has in reality been one of the attributes that has raised them to their present high position in Ohio military circles.

tion of rural New England. Promising efforts among the "captains of industry." The significances of thrift education. School savings banks, thrift missionaries and the like.

V. Personal duties in regard to the unknown needy, emotion, money, secrecy, "poor funds," children beggars, suppression of vice, personal example and influence.

VI. Conclusion:

If we have been accessory to shaking anyone's sense of the duty of forethought, his feeling of parental or filial responsibility or his conviction that if he is to live he must fit himself for civilized life, or if we have trained any to think that the world is a lottery and that the only rule is to rely on chance or Providence without intelligent prospect or retrospect, then we have done them as real and material and disastrous a mischief as if we had given them phosphorus necrosis in our factory, or poisoned them with sewer gas, or cheated them of their wages."

INSTITUTE

STATE SCHOOL COMMISSIONER L. D. BONEBRAKE PRESENT

And Delivered an Address to the Licking County Teachers on Thursday Afternoon.

The fourth day's session of the Licking County Teachers' Institute opened Thursday with devotional exercises led by Mr. Arthur D. Call, and singing led by Prof. Edwards of Xenia.

Prof. C. C. Miller of Lima delivered an address on "Spain," tracing her history from the time of her glory to her downfall.

Mr. Arthur Call then delivered his lecture.

Ethics of Veracity.

I. The ethical problems in education can be taught by every teacher. Solution of these both practicable and desirable.

II. It is so with the problem of veracity. The lie a crime which from the standpoint of the moralist is most serious. Legitimate (?) deceptions, illustrations. Children's deceptions and deceptions. The measure of remorse and the influence of the supernatural. The value of "atmosphere" in the unconscious tuition of the young. The right judgment of child-morals. Conventional half-truths.

III. The obligation to instruct children in the ethic of the lie. The lie as any vicious intention to deceive. The vice and phases of the lie.

IV. The larger aspect of the lie, of the problem in general. The evidences of shoddy in many forms. The poet's view in Goethe's "Vorspiel auf dem Theater." Truth the characteristic of the immortals in literature—Homer, Sophocles, Jesus, Plato, Dante, Shakespeare, Goethe, Emerson. Byron's Oriental Poems compared with Scott's Pastorals; Ghazal and Giotto.

The veracity in Guido Reni, St. Francis of Assisi, Wordsworth compared with the error of Andrea del Sarto.

V. Maxims from this problem touching consistent living, quibbling, practice, chivalry, noblesse oblige, success, artistic insight, reputation, freedom, spirit.

VI. Conclusion:

Indeed our pupils must learn that as in the decoration of a building so in the matter of personal dress or speech in all human relations, in the very secret chambers of thought, all worth and hence all progress roots deep never to unrealities and bluff, but to the pure underlying waters of veracity and truth. It is in no small sense therefore that the habits of veracity become thus the large ends of public education just as they are most certainly the vital aims and purposes of life itself.

The afternoon session was opened by devotional exercises and Dr. Keyes gave a most interesting talk on "The Interesting and Uninteresting in Language."

Hon. Lewis D. Bonebrake, State School Commissioner, was in attendance and addressed the teachers, after which Mr. Call delivered his lecture on

The Ethics of Veracity.

I. Bearing of the ethics of reputation, justice and benevolence upon the problem of charity. The influence of Malthus' "Principle of Population;" its many errors yet great service. The Malthusian Law and its relation to the theory of charity.

II. Charity as a permanent necessity; the reasons. Comparatively recent origin of the spirit of charity; influence of the parable of the Good Samaritan.

III. The many misdirected charities; illustrations. Resulting difficulties. The theory of relief. Evils—economic and moral. The aim: not primarily to alleviate but to cure poverty.

IV. And yet society has a duty; and it is performing this duty—illustrations. The German idea and system. The work in London, Paris, Naples, New York, Boston and Chicago. Hopeful changes in the religious attitude of men; church enterprises. Mr. Hart's suggestions for the regeneration

Poor Old Zanesville.

The Zanesville team which that city refuses to support on week days, during which time it finds a home in Catlettsburg, Ky., has been getting its bumps very regularly and the Lancaster team has shown Drumm's aggregation a thing or two about the game this week, taking two games from them out of a three game series.

The team representing Zanesville is a good one, ranking with Coshocton, which team played in Newark last Sunday, but compared to Idlewild the Clay City players are like dry horses compared to stake winners.

Coshocton 8, Interurbans 5.

The Fountains of Coshocton, who were defeated 19 to 6 at Idlewild last Sunday by the local team, beat the strong Interurbans of Columbus, at Coshocton Wednesday afternoon by a score of 8 to 5.

This merely goes to show the high class baseball put up by the Idlewild team, and it is fully expected by managers and players that Urbana will fall before them next Saturday and Sunday.

Two Y. M. C. A. Games Saturday.

There will be two games of ball at the Y. M. C. A. athletic field tomorrow afternoon. At two o'clock the Y. M. C. A. team will play the Dresden team, a strong lot of players having a goodly list of victories to their credit this season. This will be a lively game and every one who enjoys a good game of ball should come prepared to root for the home team. At 4 p. m. the dry goods clerks will play the jewelry clerks. Each team is confident that the victory will be theirs, and the friends of both teams will be in evidence among the enthusiastic rooters. A single admission fee of 25 cents will be charged for both games, grand stand 10 cents. Ladies will be admitted free.

The Big Fight.

San Francisco, Aug. 12—Betting on the heavy weight championship battle continues to be light, contrary to expectations. Jeffries remains a two-to-one favorite. A report from Los Angeles the home of Jeffries, states the champion is a three-to-one choice at that place.

ABSOLUTE CURE FOR STOMACH TROUBLE

No Matter How Long You Have Had It NAW'S DYSPEPSIA CURE—IT CURES THE CAUSE.

"For 20 years until within the last 15 months I have been greatly troubled with indigestion and have used a great many remedies without obtaining any permanent relief. About the 15th of June, 1900, I commenced using NAW'S Dyspepsia Cure, and am pleased to say that I consider myself entirely cured of all stomach troubles. I have delayed expressing to you my opinion of your valuable remedy until such a time has elapsed as to convince me of my entire recovery. At the time I began to use NAW'S Dyspepsia Cure, my health was in a critical condition and my friends had almost given up hope of my recovery, and I am satisfied in my opinion that had it not been for NAW'S Dyspepsia Cure, I would not be alive to write this letter." Subject for Discussion.

The Life and Character of Gideon is the subject which will be discussed in the conversational class next Sunday afternoon. Mary Scott will lead the class.

AMUSEMENTS.

The Beggar Prince Opera Company, Clarence M. Parker, manager, which is playing a four weeks' engagement at Idlewild park, changed the bill from the Beggar Prince last night to Olivet, which will be seen the balance of the week at Idlewild casino. This pretty opera is well presented and is well worth seeing.

LADY PERFORMERS ADMIRER.

Whether the spectator be a lass from the farm or a belle from the social set she is sure to admire the lady performers with the Great Wallace Shows, which will exhibit in Newark Thursday, August 20. In the circus ring is one place where a woman has an equal chance with her male companion. As a rule she draws a higher salary, receives greater applause and more commendations from the management than does the male performer. Notwithstanding their high salaries and the scarcity of performers worthy of being featured with a show of the magnitude of the Great Wallace Show, probably more lady performers can be seen with that show than with any other six shows. At the head of the large number stands beautiful Blanche Reed, one of the half dozen acrobatic equestriennes who have attained eminence as a bareback rider. Her routine or repertoire of feats and evolutions is so varied that she can completely change her act at every performance for days at a time. In all she does there is naught that is commonplace. She scorns the ordinary and abhors the conventional. In the vernacular, she begins where the others leave off, and ends with an unapproachable achievement of acrobatic agility that is apparently unattainable and past belief unless seen with one's own eyes.

VOGEL'S MINSTRELS.

When either the President of the politician "swings around the circle," they rarely describe more than an arc. It is your bustling irrepressible minstrel manager, like the indomitable John W. Vogel, he of the large "Big Minstrels," who leads the genuinely strenuous life and tours the country for 45 unrelenting weeks on a continuous stretch. The thespians groans over a few one night stands during a season, but your Vogel in minstrelsy is ever on the move, knoweth with his 50 performers and prodigious preliminary expenditures and running expenses, that he must cover a vast territory to place the figures in the profitable column of the recording ledger. We hear of Vogel during the season at Portland, Oregon, and Portland, Maine; Washington City and Washington State; New York and New Orleans; at Boston and San Francisco, and marvel at his rapid journeyings from "pillar to post." And what a vast amount of work to be constantly accomplished! Street parades, rehearsals and performances, some times twice a day, and the journeying, journeying, almost the year around. In the words of the song, "The Same Thing Over Again," until the end of the season and the band plays "Home, Sweet Home." John W. Vogel's "Big Minstrels" will appear at the Auditorium next Tuesday, August 18.

Sites and Kellenberger's Best Flour will not raise a brick house, but it is the best article you can get, on which to raise a large family. 8-11-12t

Since the time of its discovery Borrell's comet has rapidly increased in greatness and is now easily visible as a star of the fourth magnitude. It can be seen by the naked eye as a gray patch of light, one or two degrees southwest of the bright star Alpha Cygal.

"Clover Leaf" flour is high patent, made on sieves, and much whiter and purer than flour made the old way. 8-5-10t

DESPAIR AND HOPE

A Tragic Life Story.

If there is anything in the theory that we get our heaven and hell here on earth, it could be said with perfect truth that a \$1 medical prescription known as D. D. D., literally lifted this man out of hell. The awful miseries of a poisoned skin can be understood only by the afflicted. The nights of sleepless agony with hands tied to prevent tearing the flesh, the rundown general condition which results, and the black hopelessness of life can all be visibly traced in the first of these photos. As will be seen, this man is a man of powerful physique, but it will be seen from his face in the first picture that it is a grim struggle to live and keep up his courage.

In contrast, if the reader will fairly consider the picture after treatment with D. D. D., a new man is seen. Study this picture; contrast the two. Something has worked a wonder here. Reader, it was nothing on earth but D. D. D. and a kind Providence which directed the attention of this man to a public announcement about this medicament and its wonderful work in such cases. Providence went farther than this; it gave him some confidence in what he read. He made up his mind that he would try it. To this fact he owes all the peace, content and happiness so plainly seen in his face in the second picture. He states that after the third application of the remedy all his previous distress had disappeared entirely. The fevered condition resulting from continued irritation had subsided and he slept soundly nights.

The name of this gentleman is Mr. Henry Walters, of St. Louis, Mo. We have the sworn affidavit of Mr. Walters that in just twenty-nine days after starting treatment with D. D. D. he discontinued further use of it, every visible trace of the disease having disappeared. Since that time not a trace of the trouble has shown itself on any part of his body. His hair has since grown long and the scrubby beard previously grown on his face to hide the sores, is kept cleanly shaved, and he is today a man of strikingly fine appearance, with the highest ambition and activities in life and every happiness possible to most men here on earth. Results of this kind that are proven to be directly due to a preparation of this sort certainly call for public appreciation. This prescription in sealed bottles, bearing authentic label of D. D. D. Co. of Chicago, sold at \$1. The bottle is a liberal one and has proved sufficient to entirely cure many cases.

Eczema

is probably the worst and most stubborn of skin diseases, and it was for this that this prescription was studied out and perfected, but all skin diseases are caused by parasites or some form of germ life in the skin-structure. The prescription quickly and entirely annihilates all forms of parasitic life lodged anywhere in the skin. Many people imagine they have blood trouble when they break out with some form of skin affection, but not in one case in a hundred is this a fact, as the very healthiest blood is often found in the strongest men affected with breaks and eruptions of some kind in the skin. In all such cases the trouble is at the surface or near the surface, and it can be searched out and annihilated completely by this preparation.

The Above Is True.

I have received carefully prepared and fully attested documents and particulars regarding the case above mentioned of Mr. Henry Walters, of St. Louis, a victim of psoriasis, a form of eczema. I can say to all persons afflicted with any form of skin disease that the medical testimony submitted shows beyond any doubt that they can cure themselves by the use of this preparation. I say beyond a doubt. I mean this fully, providing the affection is really a skin disease, as it has been shown that each of the known germs that cause skin affection have been entirely routed out and conquered by the preparation.

SAW MOTHER SAFE

Then Emily Beach Tried to Rescue
Baby Sister—Both Burned.

Loram, O., Aug. 13.—After seeing
that her mother had got out of the
house Emily Beach went after her two
days' old sister, who was in an upstairs
room of their burning residence. The
smoke and fire overwhelmed her and
her charred body, together with that of
her sister was found after the flames
had been extinguished. Emily, who

was aged 18, was filling a gasoline tank
and the fluid overflowing the tank
caught fire from the stove. Burns re-
ceived by the mother, Mrs. Julius Py,
will probably cause her death.

OUTING

ENJOYED BY CHILDREN AT THE
PARK WEDNESDAY

The Little Folks Had Plenty to Eat,
Saw the Opera and Enjoyed the
Games.

A fresh air outing was given to the
little folks at Idlewild Park on Wed-
nesday under the supervision of the
Misses Jones, Laumer and McDonald
of the King's Daughters, and Dr. C. B.
King. The car left the West Side of
the Park about 9 30 o'clock in the
morning, arriving at Idlewild Park
about 10 o'clock. The day was an
ideal one. The children amused them-
selves on the merry-go-round and the
swings until twelve o'clock, when a
fine dinner was served at the Park ho-
tel. The genial host, Mr. Miller and his
estimable wife, did everything in
their power to make it pleasant for
the little ones. After dinner the
children were escorted to the casino,
where they enjoyed the beautiful opera
"Olivette." After the opera the chil-
dren were seated in the hotel and some
twenty pounds of fine assorted candies
and nuts were served in paper sacks.
The balance of the day was spent in
riding around on the merry-go-round,
much to the delight of the little ones.
The car returned to the city about five
o'clock in the evening, and all seemed
delighted with the day's outing. Noth-
ing occurred to mar the agreeableness
of the occasion. It is hoped that these
annual outings will become a perman-
ent thing, and that this one is but the
forerunner of many more yet in store
for the children who never have an op-
portunity of enjoying occasions of this
kind, unless given by those who are
actuated by philanthropic motives.

CONGRESS

MAY BE CALLED IN SESSION IN
OCTOBER.

Important Conference is Held by the
President and Senators at
Oyster Bay.

Oyster Bay, N. J., Aug. 12.—As a re-
sult of a conference between President
Roosevelt and members of the Senate
sub-committee on finance last night,
congress may be called in extra ordi-
nary session in October. The date of
calling an extra session has not been
decided upon, but it will probably be
several weeks earlier than November
9, the date previously decided upon.
The conference at Sagamore Hill was
participated in by the President and
Senators Aldrich, Allison, Spooner
and Platt, of Connecticut.

King of Spain is Reported to be Suffer-
ing From Consumption—Report
Not Verified.

Madrid, Aug. 13.—There is a persis-
tent renewal of the rumors that the
condition of the health of King Alfon-
so is grave. According to the reports
the physicians who are attending the
king have ordered him to stop bath-
ing and horseback riding. King Al-
fonso is now at San Sebastian. It is
stated that the prohibition of the
physicians is due to rapid progress
that consumption has made.

POWERS TRIAL.

Georgetown, Ky., Aug. 13.—Under
guard of two officers from the state
penitentiary Henry Youtsey, serving a
life term for the assassination of Gov.
Goebel spent last night in a room at
the Wellington Hotel, so that he might
be here this morning to go out the wit-
ness stand in the Caleb Powers case,
and that commonwealth's attorney,
Franklin, might confer with him before
putting him up as a witness. Youtsey
was up early this morning and accom-
panied by Guards Harrod and Bullock
he was one of the first to enter the din-
ing room. After the morning meal the
prisoner was returned to his quarters
on the third floor of the hotel.

Court convened at 9 o'clock this
morning and W. H. Cullen resumed
the witness stand for the completion of
his cross examination.

At Idlewild.

A large audience was present at the
presentation of the opera Olivet, at
Idlewild park Wednesday night by
the company under the management
of Clarence M. Parker.

The music of this opera is better
than that of "The Beggar Prince," al-
though not so generally familiar. The
soloists and chorus appeared to much
better advantage Wednesday night
than before during the week, showing
the conscientious and capable work of
the musical director, "Sid" Riley. The
following cast of characters appears
in Olivet:

Captain DeMerrimac, of the man-o-
war Cormorant Byron Bront.
Valentine, officer of the Guards, his
nephew, Harry Lea Velle
Duc des Lis, cousin of the Countess,
C. E. Morton.
Coqueliocot, his foster brother, Chas.
Huntington.
Marvejol, father of Olivet, Clarence
M. Parker.

Pedro, a sailor, Harry Dyer.
Bailiekie, Countess of Rousillon, in
love with Valentine, Miss Vilet Stan-
ley.

Veloutine, Olivet's maid, Miss Mabel
Foreman.

Moustique, Capt. De Merrimac's cab-
in boy, Miss Maude Goodman.

COAL DEAL

IN OHIO THAT INVOLVES TEN MIL-
LION DOLLARS.

Consolidation of Properties in Harri-
son, Jefferson and Belmont Coun-
ties is Now Announced.

Wheeling, W. Va., Aug. 13.—A \$10,-
000,000 coal combine in Ohio, consoli-
dating the properties in Harrison, Jef-
ferson and Belmont counties, is being
formed. The purchase for \$500,000 a
couple of days ago, of the Upstill Coal
property at Hoosac, Ohio, by the Mor-
ris-Poston company, was the first step.
Persons active in the deal are Calvary
Morris, of Cleveland, president of the
Cleveland Trust Co., and C. L. Poson
who recently sold his Hocking Valley
coal lands to J. P. Morgan's syndicate
for \$3,000,000. The combine is to be
the biggest yet formed in Ohio coal.

ENGLAND

Being Replaced by America and Ger-
many—Russian Paper on Opening
Manchurian Ports.

St Petersburg, Aug. 13.—The Novo
Vremya, in an editorial article today
on the attitude of the United States
toward Russia regarding the opening of
ports in Manchuria, says:

"Whereas Russia has been accusom-
ed to look upon England as a perma-
nent enemy, the situation now has
changed, England being replaced by
the United States and Germany."

"An American diplomat was asked
by a Russian why the open door did
not apply to the Philippines as well as
to Manchuria, and the diplomat re-
plied, 'That is quite another affair.'"

The article then proceeds to say that
the United States is now guided by
commercial instinct; that she is hiding
behind England and Japan which she
is pushing on, and that England with
fatal unreasonableness is doing young
America's work as she did that of Ger-
many in the Venezuelan affair.
